You too talk about how "discipline shapes the future of a student".

You all may know the story of the ant and the grasshopper. It tells us how the ants being meticulous and disciplined finish their work in summer and enjoy their fruits in winter. On the other hand, the grasshopper lacks oddious perseverance and suffers during the winter when we do any work with discipline we surely reap its fruits later.

Discipline is extremely vital in a student's life. While it builds their character, it also enables them to live a better organised & life. We are taught to be disciplined from a very young

age. Keeping quiet in class, knowing in a file, speaking politely, standing up when a teacher enters the class are some of the vital habits which we have developed over the years. A disciplined student often turns out to be an excellent and responsible citizen.

If a person

As Gandhi rightly said ;

Gender discrimination in Society
 by Karuna

The recent census shows the alarming
 male : female ratio . This recent survey

leaving to light the increasing number of female foeticides. Though sex discrimination of baby is banned in India, such a sex alarming condition is prevalent in India.

In this male dominated country, people tend to the give special treatment to boys in the family. Though such situations are reduced in modern cities, in villages false gender discrimination Dowry system is still prevalent in many parts of the country. Women are oppressed and their needs are suppressed.

This problem can only be solved by changing people's mindset. Girls are equal in any respect to boys. To subdue any women is innumerable. Be it Kalpana Chawla, Savita Hilia or Raxia Begum. Women have proved their worth throughout

ages.

People should be made aware of such great achievements of women. Stringent laws against female foeticide should be implemented. People should be educated so that they gain a broad mind. Girls should be given special reservations in schools and colleges. The parents with girl children should be provided with incentives. Villages awareness could be raised in villages through skits, plays and posters.

This depicts the difference in perspectives of a child and an adult. As a child Jo only sees the facts. But Jack wanted to convey a moral to Jo. He wanted to emphasise the fact that 'what parents' decisions for the children are always right.'
